During the week we looked at the prefix ‘geo’. You completed a ‘Popplet’ where you found words that started with ‘geo’ and then stated the meaning of the word.

A suffix is an ending of a word that *when added to a word forms a variation, or changes it to a noun, verb adjective etc, e.g., -ation, -fy, -ing, -itis.*

Now we want you to define the suffix ‘ology’ and find several words that have this suffix.

Complete this in Popplet again setting it out exactly as you did for your ‘geo’ words.

The 7 times table is a little difficult to learn because.... (Write your answer in your book.)

**Literacy**

During the week we looked at the prefix ‘geo’. You completed a ‘Popplet’ where you found words that started with ‘geo’ and then stated the meaning of the word.

A suffix is an ending of a word that *when added to a word forms a variation, or changes it to a noun, verb adjective etc, e.g., -ation, -fy, -ing, -itis.*

Now we want you to define the suffix ‘ology’ and find several words that have this suffix.

Complete this in Popplet again setting it out exactly as you did for your ‘geo’ words.

**Mathematics**

Complete some work on Mathletics.

Find some Fractions work about ‘equivalence’. In your book write the meaning of ‘equivalence’.

On your iPad we want you to take at least 10 photos of ‘fractions’ that you can find around your home (inside and/or outside). Remember you can have fractions of length, area, shape etc.

You can also have a fraction of a collection ie 2/3 of 12.

Present your photos in Keynote and make sure that you label and define the photos you have taken.

Add some notes about equivalence to your information.
