**Maths - Number Revision**

Over the past couple of weeks we have been revising our knowledge of the four processes. Please complete the number activities on the back of this sheet, don’t forget to show your working out.

**Maths - Area & Perimeter**

Today in class you watched a You Tube clip about area and perimeter.

Your task is to create your own short video explaining what area and perimeter are and how you calculate each of them.

You may an app of your choice but if must show examples of both area and perimeter. You might like to come up with a catchy tune like this creator has. If you would like to watch the video again, visit the 5M blog.

**English - Boring Sentences**

We have learnt that editing doesn’t just involve fixing capital letters and full stops. The following passages are really boring and your task is to re-write them and make them more interesting. You might like to add adverbs or adjectives, change the verbs or restructure the sentences ... as long sounds more appealing to the reader.

1. The man got in the car. He drove his car to the old house. He walked up to the door and knocked on it. The door opened.
2. The bird was singing outside my window. It was sitting on a branch and I could see its nest. I like birds.

**Science - Solar System Quiz**

In Science, we have found out that there are many objects within our Solar System, such as comets, meteors and asteroids. Take this quiz to find out more about each of these:

1. I am the scientific name for a shooting star ...
2. I’m a small rocky bit that floats through the Solar System...
3. Most of us live in a belt between Mars and Jupiter...
4. I have a tail...
5. My orbit is so reliable that you can watch for me to come back

**Reminders**

★ Homework and Reading Diaries due each Friday
★ Wednesday 27th November: Out of Uniform Day, gold coin donation - BRIGHT colours!
★ You should be up to Week 4 of your Moon Diary.
★ Don’t forget to practise your times tables - you might like to record the times you do this in your book.
